

A Philips electric window fan has both extract and intake facilities. Made in tough easy-to-care-for, easy-to-clean, clear polystyrene to cut light loss to a minimum. A pull of the cord opens the weatherproof shutter and immediately sets the window fan working to extract steam and cooking smells. A flip of the front controls reverses the blades and draws fresh air in. The overall size of the window fan is 8½ x 6ins. Extraction rate is 9,000 cu. ft. per hour. 240 volts, A.C. only. 15 watts. B.E.A.B. approved.

9N.6325 Fan £7.50 20 wks @ 30p

B The Xpelair fins window extractor fan, ideal for kitchen or bathroom use. Extracts 10,000 cubic feet of air an hour. The built-in switch is operated by a single cord and the Autovana shutters prevent 'blowback'. The ivory plastic casing is easily removed for cleaning. 220/240 volts, A.C. B.E.A.B. approved. SPECIAL OFFER—Save £1.18 on the recommended selling price of £12.78.

Size: 8½ x 8½ x 4ins. approx.
9N.5973 Extractor Fan £11.60 20 wks @ 58p
