a really **NEW**
EXTRACTOR FAN...

The new Minex Mk. III is the Extractor Fan you'll be glad you waited for. Smooth, quiet, with a high efficiency 40 watt motor and 8" impeller that really shifts air, without noise, the Minex Mk. III gives superb value for money. Your wife will be delighted with its smart styling, gleaming white finish, transparent louvre and the effortless ease with which it keeps her kitchen fresh and free of condensation. You will be delighted at its ease of fitting (no screws at all) and low price.

Look at these **NEW FEATURES . . .**

- Transparent adjustable external louvre prevents back-draught without obstructing light.
- Special moulded rubber gasket for simplicity of installation—no screws required.
- Powerful motor with 8" 4-bladed transparent impeller to extract maximum air with no noise.
- An engineering product which is robust, efficient and of attractive design.
