**3 Kw. COAL EFFECT FIRE**

A new Glowing Coal effect Radiant-convector electric heater to give you All-round Warmth. With all the comforts of a coal fire — without all the carrying, dusting, and discomforts of a real coal fire. Designed to fit into any standard size fireplace or free-standing against a wall this new electric fire has a 3 Kw. capacity, having switching arrangements for 2 Kw. and 1 Kw. and, if necessary, the heating unit can be switched out of circuit completely leaving just the Coal Effect Fire illuminated. Warm air is re-circulated by means of convection from the small expanded grill fitted above the three 1 Kw. electric bars. Hammered beige finish and chromium fittings surrounding the heating unit. Safety guard. Two kick switches. Fire flicker. 3,000 watts. 230/250 volts. A.C. Height 22½ ins. Width: 15½ ins. Depth: 13½ ins.

**New Low-Price FAN HEATER**

With twelve variations of Heat and Fan Speed. The "Komet" with its attractive two-tone finish is smartly styled in the modern Slim manner. It is easily portable, has a Whispering motor and is designed to give maximum circulation. In Winter — 2 Kw. to heat the room quickly and ½ Kw. to maintain the temperature, each heat has a choice of three fan speeds. In Summer — three speeds give a steady silent flow of cooling air. When hung on the wall the body can be swivelled round to place the switches underneath within easy reach. For Hair Drying, Room Temperature control or Clothes Airing the "Komet" is unbeatable value. 220/240 volt. A.C. only. 30 Watt motor. Guaranteed Twelve Months.
