

Change of air for housewives

artcollect

**12 changes of air
every hour with
NEW
XPELAIR
extractor fans**

Enjoy wonderful fresh air all the time in your kitchen. No more cooking smells, streaming windows, or greasy dirt on walls and paintwork. New Xpelair from G.E.C. whisks them out instantly . . . silently. Changes the air 12 times an hour in the average size kitchen. Just switch on and the new draughtproof shutters open automatically. Easily installed in window or wall, with special new design to fit any thickness. Easy to clean — just press a button for quick removal.

New slim design in ivory plastic suits any colour scheme. 6" model is ideal for your kitchen — bathroom, too — and runs so economically. Fit Xpelair now and enjoy perfect year-round ventilation.
