

XPELAIR SALES DIVISION

Woods of Colchester Ltd.
32/36 Great Portland Street, London W.1
Museum 4214/8

Our Ref: LH/BP

Date as postmark

Dear Sir or Madam,

In response to your request we have pleasure in enclosing herewith our publication which illustrates the range of Xpelair fans.

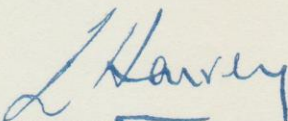

We are certain you will agree that the Xpelair in appearance, is years ahead in design, and the exclusive built-in Iris shutter and on/off switch ensures that the unit is completely draught proof when switched off.

The built-in switch also eliminates the need for additional wall switches and therefore reduces installation cost.

Installation is simple in glass, or alternatively through the wall by using the extension rods or wall plates.

Your Xpelair can be obtained from all good Electrical Suppliers, but should you experience any difficulty we should be pleased to assist upon hearing from you.

Yours faithfully
XPELAIR SALES DIVISION

(L. HARVEY - Manager)
