Cat. No. 870/0003 £53.99

IONISERS - help to create a healthier environment by restoring the balance of negative ions in the air. They help to remove "pollutants" such as dust, smoke and pollen, giving the air a fresher, cleaner feel and may help sufferers of hay fever and asthma.

AIR PURIFIERS - help to clear the air of smoke, pollen and dust by the use of multi-stage filters leaving it fresher and cleaner.

AIR SYSTEMS - are ionisers and air purifiers combined.

EXTRACTOR FANS - Pull stale indoor air outside, removing heat, moisture, odours and pollutants.

Items nos 18 and 19 must be permanently connected to a 240V ac electrical supply. If in doubt, consult a qualified electrician. All sizes quoted are approximate. Batteries are not supplied unless otherwise stated.
